

VICTORIA + ALBERT

Care & Maintenance

QUARRYCAST® and cast stone bathtubs

Everyday cleaning

- Rinse and wipe dry after each use with a soft cloth.
- Clean with warm water and a mild, non-abrasive liquid soap.
- Remove limescale with a diluted vinegar solution, then rinse well.

Avoid

- Abrasive pads, powders and bleach-based or solvent cleaners.
- Hair dyes and nail polish remover in contact with the surface.
- Placing hot objects directly on the rim.

Minor scratches

- Light surface marks on matte finishes can often be buffed out with a fine, wet, non-woven pad. Contact us before attempting repairs on gloss finishes.
